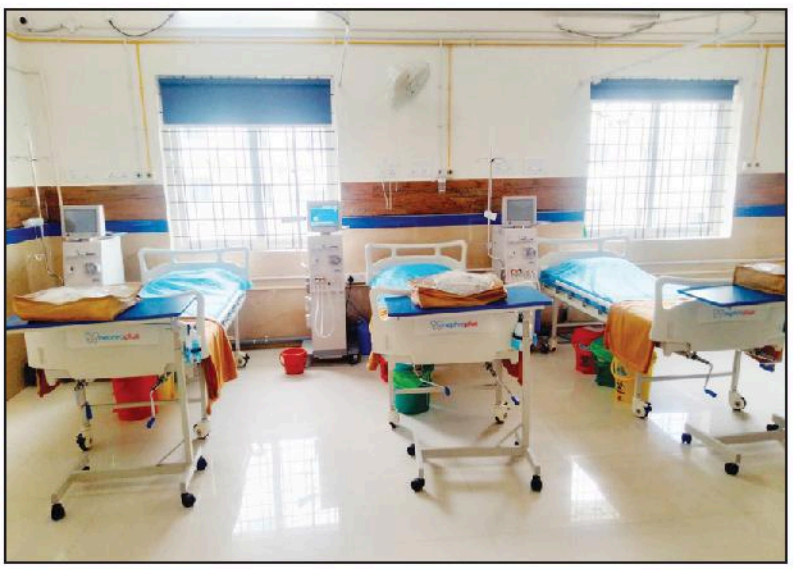
Free dialysis service begins at District Hospital

APL and BPL card holders can avail of this service



The three-bed dialysis unit at the District Hospital on KRS Road in city. Picture right shows Dialysis Unit Head B. Ravi monitoring the dialysis of a patient.

Mysuru, July 18 (MK&KS)- The dialysis unit at the District Hospital on KRS Road, equipped with state-of-the-art dialysis equipment, has commenced its operations.

This new unit, established by the Health and Family Welfare Department in association with Nephro Plus, offers free services to APL (Above Poverty Line) and BPL (Below Poverty Line) cardholders.

Expert doctors and skilled technical staff have been deployed at the new dialysis unit, with approximately 20 patients having undergone dialysis in its first month of operation.

Located next to the ICU wing, the unit currently utilises three out of its six dialysis machines, with the remaining machines available for use as patient demand increases. These machines are equipped with modern technology that aids in the speedy removal of waste products and excess fluid from the blood when the kidneys cease to function properly.

Single-use dialyser benefits

The single-use dialyser policy benefits patients by reducing cross-infections and contamination, as well as risks associated with exposure to germicides and denatured blood products.

This policy enhances toxin removal, ensuring patient safety. Currently, three of the dialysis machines use single-use dialysers, eliminating the risk of cross infections.

Dialysis Unit Head and Nursing Officer B. Ravi explained to *Star of Mysore* that the previous use of multi-use dialysers had led to infections among patients. Consequently, the State Government has instructed the use of single-use dialysers instead.

Improvements in patient outcomes have been observed with single-use dialysers, as they efficiently remove impurities from the blood and infuse clean blood back into the patient, resulting in improved vitality and daily functioning.

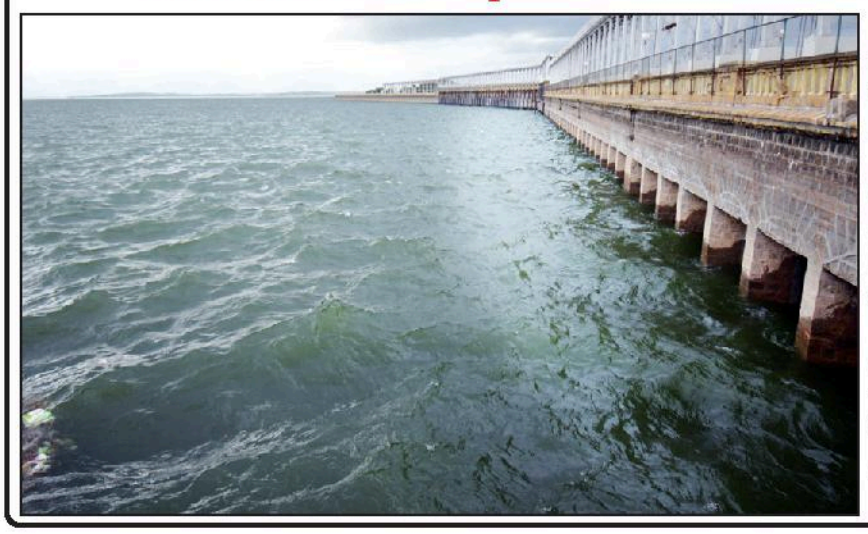
Quality free service for all

Patients of all economic backgrounds suffering from kidney failure are provided with free dialysis services at the District Hospital. Patients need only to obtain an out-patient slip for Rs. 10 to access these services.

(See DIALYSIS on page 7)

11.40 feet more to go...

KRS Dam water level is at 113.40 feet now as against a maximum level of 124.80 feet; expected to rise with continued heavy rains



Mandya, July 18 (MR, VK & BCT)- The water level of the KRS (Krishna Raja Sagar) Reservoir in Srirangapatna Taluk of Mandya district crossed 113.40 feet this morning at 8 am, with an inflow of 36,772 cusecs.

Continuous rainfall in the Kodagu district has caused the water level to rise rapidly. If the same rainfall pattern continues for another 10 days in Kodagu, where the River Cauvery originates, the Reservoir will soon reach its full capacity of 124.80 feet.

Currently, the water stored in the dam is 35.282 tmcft (thousand million cubic feet) against the maximum capacity of 49.452 tmcft. Initially, there were doubts about whether the Dam would fill up this time due to insufficient monsoon rains, causing concern among farmers.

Karnatak vocal concert by Ila Sangeeta tomorrow

Vidu. Ila Sangeeta Vidu.Shruthi Vid. Sharma Vid.Sunad

Mysuru, July 18- Ganabharathi, Mysuru, has organised a Karnatak vocal concert by Vidu. Ila Sangeeta Dilip tomorrow (July19) at 6 pm at Veene Seshanna Bhavana in Kuvempunagar.

The concert in memory of Smt. Varada Dongre is sponsored by Shashidar Dongre.

She will be accompanied by Vidushi C. V. Shruthi on violin, Vid. Anur Ananthakrishna Sharma on mridanga and Vid.Sunad Anur on khanjira.

About the artiste: Vidushi Ila Sangeeta Dilip started her music journey with Guru Vidushi H. N. Rajalakshmi and continued with Vidushi Pushpa Srinivasan and Vidushi Dr. Sukanya Prabhakar.

For advanced training she is being guided by Guru Chitraveena Narasimhan. Vidu. Sangeeta has performed in many well-known platforms in India and abroad and recognised by many institutions with awards. Vidushi M. S. Subbalakshmi Ragam Tanam Pallavi award is one among them.

EDITOR'S BOTTOMLINE

The significance of married life is great indeed. Fortunate indeed is that couple who start married life with right understanding of its importance and greatness. Marriage is a sacred spiritual partnership between two souls who have come upon this earth to evolve an ideal life of nobility, virtue and Dharma and attain their goal of divine perfection through such an ideal life. Therefore, the home of the married couple is a sanctified centre of spiritual life. The home is their place of worship, prayer, spiritual sadhana and daily meditation.

The cultural ideal of your holy motherland, Bharatavarsha, regards this second stage of a person's life, namely, the Grihasthashrama, as the sacred field for the practice of noble virtue, paropakar and dharm and for the awakening of your true inner spiritual nature. You are divine Atman. You are not merely a physical creature or a mental-intellectual being but you are a spiritual being far superior to the lesser biological and psychological aspects of your temporary human personality.

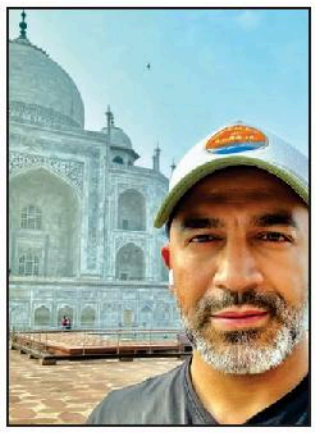
You are divinities without birth or death. Your eternal, imperishable, immortal, spiritual nature must be realised and experienced in this very life. To attain this wonderful experience the wife and the husband must help each other. They are mutual helpers in this grand adventure of ideal living and spiritual unfoldment.

The home is a sacred arena for the attainment of self-conquest and self-mastery, which is more thrilling than the scaling of Mount Everest. The daily life of the Grihastha and his Griha Lakshmi must be the sublime process of manifesting their inner divinity and expressing it outwardly through thought, speech and action. Lead this divine life.

Truth, purity and universal love and compassion constitute the basic foundation of such divine life. The essence of divine life is selflessness and seva, devotion and daily worship, concentration and regular meditation and to discriminate between the real and the unreal, the divine and the undivine, between the spiritual and the unspiritual. Blessed couple! May you both lead such a divine life! Feel that your house is the abode of God. Make God the most important factor in your life. Give God the central place in your daily life. God who is the Lord of the universe is the master of your home also. — *Swami Chidananda in The Times of India*

NEWS SPARKLERS

Man visits 7 world wonders in less than a week



Cairo: An Egyptian man sets world record for the fastest time to visit the new Seven Wonders of the World. Magdy Eissa, 45, set the new record in 6 days 11 hrs and 52 minutes. He used only public transport to visit the new Seven Wonders of the World and he beat the previous record set last year by Englishman Jamie McDonald.

Magdy said that planning his record-breaking route was a "monumental" task which took almost one and a half years. "I had to navigate a complex web of flights, trains, buses, subways and walking between transportation hubs and the Wonders," he explained. "A single disruption could derail the entire itinerary and result in a flight back home!" he added.

Man tries to smuggle 100 snakes in trousers

Shenzhen: A man has been caught trying to smuggle more than 100 live snakes through an airport into mainland China.

The passenger, who hasn't been named by authorities, wasn't happy to see airport security when they stopped him trying to leave Hong Kong and enter the border city of Shenzhen on Tuesday.

He was trying to walk through the 'nothing to declare' gate when he was stopped. China Customs say they found several bags hidden in the pockets of his trousers, sealed with tape, containing 104 snakes. Each bag was found to contain living snakes in all kinds of shapes, sizes and colours.

The snakes were a variety of species, including milk snakes and corn snakes, and many of them were non-native. "Those who break the rules will be ... held liable in accordance with the law," Custom officials said.

Solution to alleviate traffic snarls at Sub-Urban Bus Stand

Sir,

I am writing to propose a solution to the persistent traffic congestion around our city's Sub-Urban Bus Stand, particularly during peak hours.

The limited space at the existing Bus Stand, which serves as a hub for buses bound for many districts across Karnataka, is a primary issue. Overcrowding of buses and passengers has made it difficult to manage and navigate the area efficiently.

Additionally, the Bengaluru-bound buses are parked at the exit point of the Bus Stand, hindering the movement of all other buses and causing significant delays.

I suggest diverting the Bengaluru-bound buses to the vacant park opposite the existing Bus Stand. This underutilised area offers ample space for buses and passengers. The benefits of this suggestion include:

Reduction in traffic congestion: Relocating Bengaluru-bound buses will reduce vehicle congestion around the Bus Stand, enabling smoother traffic flow.

Better utilisation of space: Converting the vacant park into a bus terminal will make productive use of the land and contribute to the city's infrastructure development.

Environmental benefits: Reducing traffic congestion will lower emissions from idling vehicles, improving air quality.

Alleviating overcrowding: Diverting some traffic will make the current Bus Stand more manageable for buses serving other districts.

Unobstructed bus movement: Moving the Bengaluru-bound buses will free up the exit point, allowing for smoother and more efficient movement of all other buses.

With proper planning and execution, this proposal can bring substantial improvements to our city's traffic management. I urge the authorities concerned to consider and implement these suggestions.

'VIRAAZ' Royal Polki Jewellery Show at Malabar Gold and Diamonds

Mysuru, July 18- Malabar Gold and Diamonds has unveiled 'VIRAAZ' Royal Polki Jewellery Show, an exclusive exhibition and sale of exquisite creations in gold, diamond and precious gem jewellery in Mysuru on July 13 in the presence of Nagama Khan (Miss Mysuru 2013), Deepashree Babu (IT Profession), P. Sharafudeen, South Zonal Head and other Management members.

The intricately crafted ornaments are creations of master craftsmen. The showroom is located near Sub-Urban Bus Stand on B.N. Road, Mysuru.

Inspired by the jewels worn by Maharanis, this stunning collection will make you look and feel like a queen! The centuries-old tradition continues in contemporary jewellery designs, which have emerged into a new trousseau archetype and are heralded as the most remarkable fusion of artisanship and design.

Royal Polki Jewellery Show, which concludes on July 21, is expected to be a visual treat for connoisseurs of fine art.

Human Microbiome crucial in health, disease control

Dr. B. Sesikeran, former Director of Natl. Institute of Nutrition, speaks at Alumni Association of Food Science and Nutrition Department

Mysuru, July 18 (SPN&BCT)- The Alumni Association of Department of Studies in Food Science and Nutrition at University of Mysore was inaugurated on July 16 at Vijnana Bhavan, Manasagangothri campus.

Dr. B. Sesikeran, former Director of the National Institute of Nutrition, Hyderabad, delivered the Golden Jubilee Special Lecture entitled 'Human Microbiome: The second genome.'

He highlighted that many diseases originate in the gut, referencing Hippocrates (460 BC) who said, 'A bad digestion is the root of all evil.' He emphasised that 70 percent of immune system resides in the gut and discussed various types of intestinal microbes and their functions.

Gut health

He traced development of gut microbiota from the pre-natal to post-natal periods and explained that targeted interventions such as diet, exercise, probiotics, prebiotics and postbiotics can modulate these microbes.

Dr. Sesikeran cited several clinical studies indicating that dysbiosis of human gut microbiota is associated with neurodegenerative diseases and obesity.

Research has also identified gastrointestinal (GI) abnormalities in children with autism spectrum disorder and targeted interventions (for example, prebiotics, probiotics, vitamin A supplementation, antibiotics and faecal microbiota transplantation) can alter gut microbiota and improve behavioural and GI symptoms.

He noted that prebiotics and probiotics have gained significant attention for improving gut health and recently, postbiotics have emerged as beneficial compounds produced by probiotic bacteria when they consume prebiotics (fibre).

Western dietary habits

V.R. Shylaja, Registrar, University of Mysore, expressed concern about the environment of single-teacher and zero-teacher schools in primary schools now manifesting in UoM. Some departments in the UoM have only one Professor, and some departments without no permanent professors. She expressed disappointment that this situation is leading to a decline in the educational quality.

Shylaja emphasised that due to Western dietary habits, India is becoming the capital of diabetes and hypertension. "Our health management is in the hands of pharmaceutical companies and there is a need to raise awareness among public about maintaining good health through nutritious food consumption. Western dietary style is causing children to develop high blood pressure and diabetes at a young age," she said and advised food experts to work towards preventing this.

Dr. M.S. Tara, former Regional Director, National Institute of Public Cooperation and Child Development, Bengaluru, and an alumna of the Department, delivered the first Alumni Series Lecture on 'Transition in Nutrition Programmes and Schemes: Challenges in Social Audit.'

She discussed issues of deprivation, degradation and poverty as indicators of underdevelopment and covered global and national perspectives on nutrition. She stressed the need for social accountability mechanisms and features of social audits, sharing her own experiences in community-level work.

President of the Alumni Association Dr. Asna Urooj, Dr. Shashikala Puttaraju and Dr. Jamuna Prakash were felicitated.

Mysore Warriors Talent Hunt rescheduled

Mysuru, July 18- The Mysore Warriors Talent Hunt, scouting cricket players for the Maharaja Trophy KSCA T20 2024, has been rescheduled to July 22.

It was initially set for July 18 and has been rescheduled due to extreme weather conditions.

The event will be held at SDNR Wadiyar Stadium in Mysuru where young talents will demonstrate their impressive cricket abilities and get a chance to join the Mysore Warriors team.

The players selected from the roster at the talent hunt will undergo a rigorous training session and will put their skills to test at the Maharaja Trophy, taking place at Chinnaswamy Stadium in Bengaluru from Aug. 15 to Sept. 1.

NEWS BRIEFS

Special Discourse from July 19

As part of Satyasankalpa-teertha Swamiji's 185th Aradhana Mahotsava, city's Uttaradi Mutt Administrator **Pandit Vidya-deeshacharya Guttal** will deliver a 3-day discourse on 'Pratahasankalpagadya,' scripted by Sri Raghavendra Swamigalu, at Uttaradi Mutt premises in Agrahara at 6 pm from July 19 to 21. Devotees are appealed to attend the discourse in large numbers.

Janaspandana

The District Administration has organised a Janaspandana programme covering the taluks of K.R. Nagar and Saligrama, at K.R. Nagar Tahsildar Office at 10 am on July 20. Deputy Commissioner, Zilla Panchayat CEO, SP, elected representatives and other officials will attend. Residents of these taluks are appealed to come up with their grievances or complaints to get them addressed.

DTP training

Rastriya Computer Saksharatha Samiti, Mysuru Division, has invited applications for DTP training. Experienced teachers will be conducting practical classes in computer fundamentals, typing skills, Kannada Nudi, tally prime, DTP and other subjects to beneficiaries. Students, parents, home-makers and senior citizens, can make use of the classes. The applications will be distributed at Jayalakshmidevi Composite PU College premises, Ramakrishna Nagar in city from July 22. For registration and admission contact-Mob: 83103-06882 or 99647-90442.

Implementing National Green Tribunal order

MCC aims to make city plastic-free from Aug. 30

Zone-3 leads the initiative; 5-kg and 10-kg cloth bags to be distributed by Aug. 15

Mysuru, July 18 (SPN&BS)- The Mysuru City Corporation (MCC) is set to implement the National Green Tribunal's (NGT) orders to ban single-use plastics in Mysuru, starting Aug. 30, 2024. This bold initiative aims to make Mysuru a plastic-free city. Though the plan applies to the entire city, leading the drive will be the officers and staff of MCC Zone-3

Zone-3 Commissioner T.S. Sathyamurthy announced that before the ban takes effect, 5-kg and 10-kg cloth bags will be distributed to each of the 48,000 households in the Zone by Aug.15. This will be followed by a robust awareness campaign in public places such as parks, schools, and colleges, educating the community on the environmental impact of single-use plastics.

Stringent penalties

Under the Solid Waste Management Rules 2016, violators will face hefty fines. Shopkeepers, roadside vendors and hoteliers caught selling or using single-use plastics will be fined Rs. 5,000, while customers will be fined Rs. 500. The public is strongly encouraged to carry cloth bags when shopping or dining out.

Households that fail to segregate wet and dry waste will also face penalties. Repeat offenders will be fined Rs. 500 after an initial warning. This initiative is part of MCC's effort to tackle the solid waste mounds at Sewage Farm, Vidyaranyapuram. Households must hand over segregated waste to Pourakarmikas, who collect waste from doorsteps.

Pourakarmikas' role

Pourakarmikas are tasked with identifying individuals who illegally dump waste in public areas like drains and vacant sites. Despite warning boards, some continue to disregard the rules.

A recent warning board near Dodda Thayamma Temple in T.K. Layout has led to some improvement, noted Commissioner Sathyamurthy.

Community support

The initiative has garnered significant support from philanthropists and community members.

Generous donations of cloth bags have come from individuals and organisations, including hotelier Ravinandan Shetty (1,000 bags), Santosh of Amma Samsthe (3,000 bags), Bhoomi Narayan (500 bags), and several others, totalling 12,600 cloth bags.

Additionally, efforts are underway to identify storm-water drains connected to the Underground Drainage (UGD) pipeline and remove silt deposits within MCC Zone-3's jurisdiction, ensuring a cleaner and more efficient drainage system.

This comprehensive approach by MCC Zone-3 marks a significant step towards a cleaner, greener Mysuru, setting an example for cities across India.

Hotelier Ravinandan Shetty** (extreme right) **seen handing over the cloth bags to MCC Zonal Commissioner T.S. Sathyamurthy** (second from right) **as Accountants Meghana and Manjula, Revenue Officer Basavanna, Assistant Engineers Rajath and Mani look on.

MCC Commr. takes the lead

MCC Commissioner Ashaad-Ur-Rahman Shariff has conducted several rounds of meetings with officials to strategise and implement plans at various levels, aiming to make Mysuru city plastic-free by Aug. 30. Known as the Cultural Capital, Mysuru is set to lead by example in environmental sustainability. Officials and staff across all Zonal offices have received clear directives to ensure the successful execution of this ambitious initiative.

—T.S. Sathyamurthy, Zonal Commissioner-3

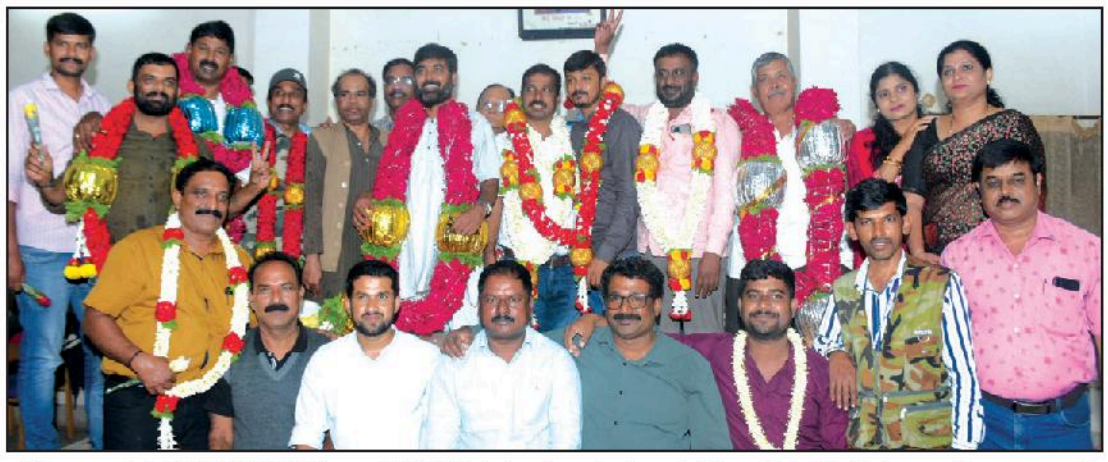
Chamundi Hill visitors warned

Mysuru, July 18 (BS)- Despite a ban on single-use plastics within the limits of Mysuru City Corporation (MCC), there has been a worrying increase in their usage, especially at religious sites.

Devotees visiting Chamundi Hill are urged to refrain from using plastic, particularly during the ongoing Ashada month. This includes a strict prohibition on plastic cups and plates for distributing Prasadam. MCC Commissioner Ashaad-Ur-Rahman Shariff has warned that fines will be imposed on violators as per rules.

The public is reminded of the importance of adhering to these regulations to support Mysuru's mission to become plastic-free.

Elected to Mysuru District Journalists Association



Mysuru, July 18 (MTY&VNS) - The following have been elected as the new office-bearers and Executive Committee members of Mysuru District Journalists Association (MDJA) for the year 2024-26 during the elections held on July 14 (Sunday).

President: K. Deepak, General Secretary: Dharmapura Narayan, City Vice-President: Ravi Pandavapura, Rural Vice- President: H.S. Venkatappa, Treasurer: N. Suresh, Rural Secretary: D.R. Mahesh and City Secretary: Krishnoji Rao.

The Executive Committee Members are: M.T. Yogesh Kumar (senior reporter, *Star of Mysore & Mysuru Mithra)*, Kavitha, Hanagodu Nataraj, D.G. Roja Mahesh, Nani Hebbal, J. Ravichandra Hanchya, Hampa Nagaraj, Somashekar Chikkamarali, J. Shivanna, Satish R. Depura, Doddanahundi Rajanna, Hullahalli Mohan, S. Puneeth, Raju Karya and C.N. Vijay.

Senior Journalists Kashinath and Bannur K. Raju were the Returning Officers for the elections. They were assisted by Basavaraju, Nagesh and Murali.

MDJA Ad-hoc Committee members Balakrishna Maddur and B.S. Prabhurajan have congratulated the new team.

Obituary

Ahmed Zubaire

Mysuru, July 18- Ahmed Zubaire (84), retired RTO at Indiranagar, Bengaluru, passed away following brief illness on July 16 at his residence in Bengaluru.

He leaves behind his wife, two sons, one daughter and a host of relatives and friends.

Namaz-e-Janaza was held on the same day after Maghrib prayers, followed by the burial at the Muslim Burial Grounds near Lalbagh, next to Al Ameen College on Hosur Road in Bengaluru, according to family sources.

AI essential for detailed study of regional languages: Prof. Girish Nath Jha

56th Foundation Day of CIIL

Mysuru, July 18 (PM&BS)- Prof. Girish Nath Jha, Chairman of Commission for Scientific and Technical Terminology (CSTT), New Delhi, emphasised on the planned study of regional languages of the country, by utilising modern technology and Artificial Intelligence (AI) effectively.

He was delivering the keynote address on the topic 'Recent Trends In Natural Language Processing In Context of Large Language Models' on account of 56th Foundation Day celebrations of **Central Institute of Indian Languages (CIIL)** at its Preview Theatre in city yesterday.

"In India's multilingual context, there is a need for extensive linguistic studies. Our regional languages are powered by tradition, with a treasure trove of knowledge. In this wake, we have to be careful in implementing the plans and research related to the language in the country forming multiple languages, as the development of AI is largely dependent on the language data in the country" said Prof. Jha.

Of the six wings of Vedas namely, Shiksha (Phonetics), Nirukta (explanation), Vyakaran (Grammar), Chhanda (Vedic meter), Jyotisha (Astrology) and Kalpa (Ritual Canon), four are related to the language. All the channels of language are dependent on language and hence there is a need for analysis and recording the visuals along with the documentation of the language, making it easier to co-opt the technology, he added.

He also informed that CSTT has undertaken a project to compile a dictionary related to science and technology in different languages in the country, including Kannada, Hindi and English. The Professors of degree and engineering colleges representing different States have been roped in for the task of finding synonyms for English words used in Science and Technology related subjects and provide suggestions in this regard.

Neeta Prasad, Joint Secretary, Ministry of Education, Government of India, launched CIIL's online book portal.

In her presidential remarks, Neeta Prasad said, unlike what was in practice 20 years ago, there has been a remarkable changes in the methods of teaching, learning and the pattern of study. The next 20 years also promises vast changes, that prompts linguistic experts to handle the challenges capably.

The manpower comprising best researchers, linguistic experts and translators, are set to play a pivotal role in preparing the country for the future. CIIL also holds the responsibility of contributing a relevant system. National Education Policy (NEP)-2020 propagates primary education in regional languages. In this wake, the CIIL's contributions in documentation of languages of the country, development and research, hold the key, asserted Neeta Prasad.

Col. Yuvraj Malik, Director of National Book Trust, India, delivered a talk on 'Knowledge Text in Indian Languages: From Production To Distribution'.

CIIL Director Prof. Shailendra Mohan, Deputy Directors Prof. Umarani Pappuswamy and Prof. P.R. Dharmesh Fernandez, CIIL Officers-In-Charge Dr. Narayan Kumar Choudhary and Dr. Sujoy Sarkar were present.

Prof. Girish Nath Jha, Chairman, Commission for Scientific and Technical Terminology, New Delhi, inaugurating CIIL's 56th Foundation Day yesterday as Prof. Shailendra Mohan, CIIL Director, Dr. Sujoy Sarkar, Coordinator of SPPEL programme at CIIL, Prof. P. Umarani and Prof. P.R. Dharmesh Fernandez look on.

ONLINE BOOK PORTAL

CIIL has launched online book portal *https://store.ciil.org* where all the books published by CIIL are available. The online payment system is also available, along with home delivery system. The books related to 497 topics and published in over 100 languages of the country are available on the portal, said Dr. Narayan Kumar Choudhary.

'Incorporation of technology in industries key to make India third largest economy'

Commissioner for Industrial Development **Gunjan Krishna** shares her views after inaugurating CII Karnataka's 'Integrate 24' exhibition and conference on buyer-seller meet in city

Mysuru, July 18 (BLU&BS)- Gunjan Krishna, Commissioner for Industrial Development and Director, Department of Commerce and Industries, outlined the significance of technology in manufacturing sector, to catapult India to the position of third largest economy in the world.

She was speaking after inaugurating 'Integrate 24,' an exhibition and conference on Buyer-Seller Meet, to boost the growth and sustainability of Micro, Small and Medium Enterprises (MSMEs), organised by Confederation of Indian Industry (CII) Karnataka, today at Hotel Southern Star in the city.

Sharing her views on the inaugural theme 'MSMEs - The Growth Engines of Indian Economy,' Gunjan Krishna observed that the growth in manufacturing sector can propel India towards becoming third biggest economy, but it is only possible with the incorporation of technology that hones the skills to face competition even at the global level. To achieve this, we should not restrict ourselves, but instead develop the capacity to shift gears from micro to small scale industries and medium to major industries.

"Of late, more tech parks are coming up and 70 percent of the revenue generated from them are spent on further development of the realm and remaining 30 percent revenue is invested in local industrial development. In Mysuru too, we are creating a more conducive atmosphere towards industrial growth and Electronic Manufacturing Cluster (EMS) aimed at encouraging semi-conductor industries, is an example to newer initiatives taken to support the sector," said Gunjan Krishna.

On increase in tax slabs, Gunjan Krishna attributed it to inter-departmental issues, but assured to clear the air, by setting a bandwidth towards solving the related issues in coming days.

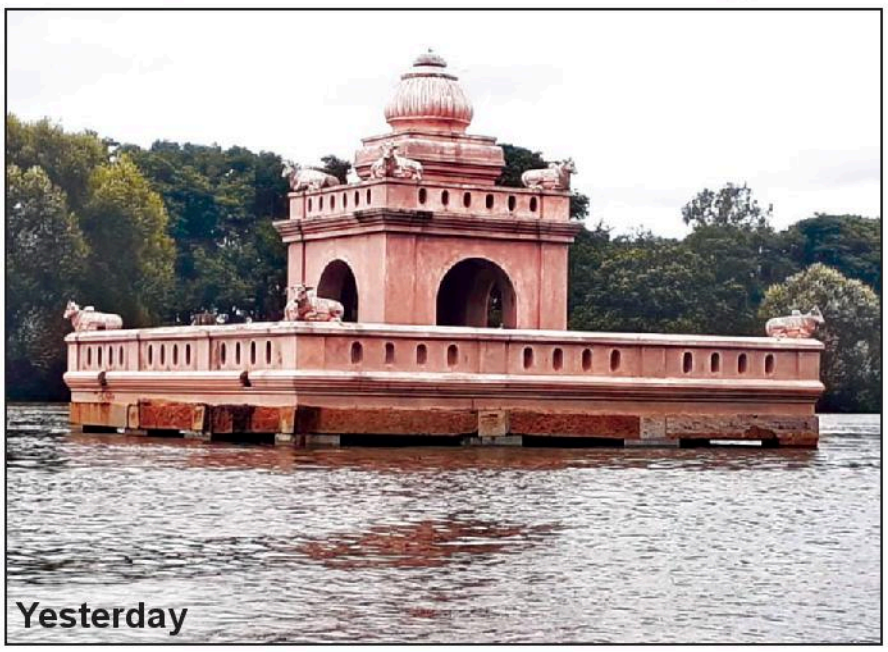
She also assured to discuss with the authorities concerned about the complaints of delay in reaching subsidy amount under MSME to the beneficiaries.

Arjun Ranga, former Chairman of CII, Karnataka State Council, said, we are leveraging the growth of MSME sector and increase in number of employees holds credence to this fact.

The inaugural session was followed by discussions on different topics 'Opportunities and Requirements For MSME Growth', 'Unlocking The Potential of Industry 4.0 and Low-Cost Automation For MSMEs', 'Opportunities For MSME: Focus Sectors That Enhance Domestic Production Capabilities', 'Enhancing MSME Competitiveness Through Bridging The Financial Gap', 'Talent Acquisition Challenges Of Growth For MSMEs Managing and Building A Workforce Of The Future' and 'MSME Growth Insights Leveraging Government Schemes and Policy Dialogue on EODB for MSMEs'. N. Venu, Chairman of CII, Karnataka Council, Radhika, Director of CII Karnataka, Sam Cherian, Convener, CII Karnataka MSME Panel, M. Ponnuswami, Co-Chairman, CII National MSME Council and others were present.

Arjun Ranga, former Chairman of CII, Karnataka State Council, seen addressing the gathering at 'Integrate 24' Meet, organised by Confederation of Indian Industry (CII) Karnataka, at Hotel Southern Star in city this morning. Gunjan Krishna** (sitting 3rd from left), **Commissioner for Industrial Development and Director, Department of Commerce and Industries, is also seen.

Kapila Rising...



Following release of 50,000 cusecs of water yesterday and 46,783 cusecs today from the Kabini Dam in H.D. Kote, the water level in Kapila River at Nanjangud has risen significantly submerging the Hadinaaru Kaalu Mantapa. Also, as water level has increased compared to yesterday's level, water is reaching the Government School on Chamarajanagar Bypass Road forcing the school authorities to shift the students to the adjacent building.

DC visits Kabini, Nugu Dams; directs precautionary steps

H.D. Kote, Nanjangud, July 18 (BCT)- In response to the heavy discharge of water from the Kabini Dam following rains in its catchment area in Kerala, Mysuru Deputy Commissioner (DC) G. Lakshmikanth Reddy visited the Kabini and Nugu Dams yesterday.

This morning, the Kabini Dam recorded an inflow of 42,829 cusecs and an outflow of 46,667 cusecs. As a result of the heavy discharge, low-lying areas in H.D. Kote and Nanjangud have been waterlogged.

During his visit, the Deputy Commissioner directed officials to take necessary precautions to handle the increased water flow. Meeting officials at the Kabini Dam Inspection Bungalow, Reddy asked them to be prepared with evacuation and emergency plans in case the outflow increases further, as Kerala, especially Wayanad, is experiencing continuous rains.

The Deputy Commissioner emphasised the importance of ensuring all safety measures are in place due to the heavy outflow from Kabini. Residents living along the banks of the Kapila River have already been alerted to move to safer locations due to the rising water levels.

Co-ordination with Kerala officers

He stressed that all necessary precautions must be taken to protect both humans and livestock from any potential harm. The DC urged the officers to closely coordinate with officials from Kerala on rainfall data and the exact amount of inflow expected to foresee potential outflow.

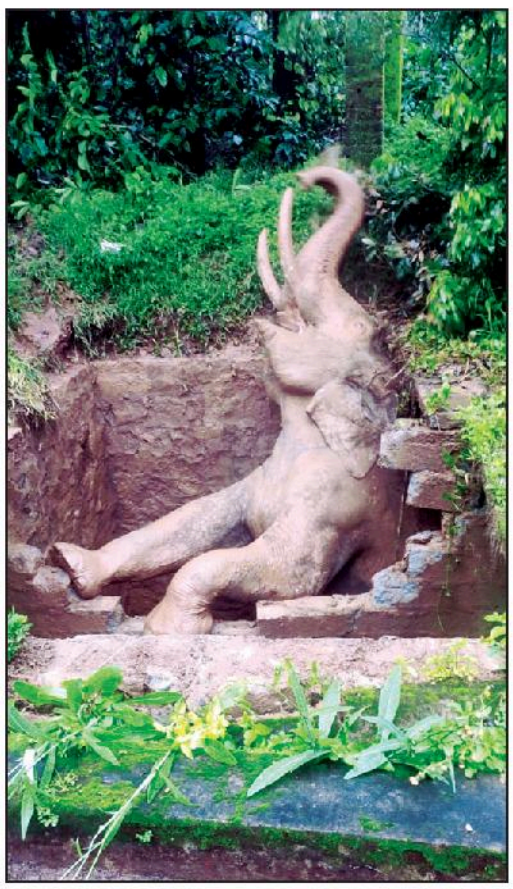
Lakshmikanth Reddy asked the Taluk administration to warn people in the low-lying areas through drum beats and announcements. People from the already affected areas must be moved to 'Kalaji Kendras,' and arrangements for food and toilets must be made on a war-footing.

Following the flooding of the Bathing Ghat (Snana Ghatta) near the Srikanteshwaraswamy Temple in Nanjangud and the low-lying areas close to the riverbanks, the Deputy Commissioner inspected other flood-affected areas in the town, including Hallikeri and the Hadinaaru Kaalu Mantapa. He directed local officials to implement measures to manage the flood situation.

He also visited Kadajatti village, Hullahalli, the Hullahalli-Mysuru Bridge, Bokkahalli, Kullaiahyanahundi and the Kapila River bathing ghat. He instructed Tahsildar Shivakumar Kasnur to take precautionary measures and open a 'Kalaji Kendra' at Girija Kalyana Mantap and shift the flood-affected families there.

While speaking with locals in Halladakeri, the Deputy Commissioner instructed the Tahsildar to ensure the provision of basic amenities to the affected locality. Accompanying the Deputy Commissioner were Superintendent of Police N. Vishnuvardhan, Additional DC P. Shivaraju, Hunsur Assistant Commissioner Venkatraju and other officers from the Revenue Department and the Police.

Tusker falls into open septic tank in Kodagu; RESCUED



Kushalnagar, July 18 (AG& BCT)- A tusker in search of food wandered into the human habitat of Kolthod-Bygod village near Virajpet and fell into an incomplete open septic tank in the wee hours of today. After several hours of rescue efforts, the pachyderm was successfully freed and driven back into the nearby forest.

The incident took place on the property of H.A. Ganesh, a resident of Kolthod-Bygod. Ganesh had dug a 20-foot-deep pit for septic tank behind his house, covering it with wooden planks. The pit measured 10 feet in width and 15 feet in length. As the tusker stepped on the wooden planks, they gave way, causing the animal to crash into the pit.

Struggling to escape, the elephant trumpeted continuously. Ganesh, who heard the sound around 5.30 am to 6 am, saw the animal trying to climb out, its trunk protruding from the pit. He immediately alerted the Forest Department staff, who rushed to the scene. Officers estimated that the elephant had fallen into the pit around 2 am.

An earthmover was called in to assist with the rescue. It began digging alongside the pit as the tusker continued its efforts to escape. After the earthmover dug out half of the pit's outer portion, the tusker managed to walk out with some effort. The elephant was then driven to the Ayyappa Devarakaadu nearby.

Virajpet Division Conservator of Forests Jagannath, ACF Nehru, RFO K.M. Devaiah, DRFO D.P. Sanjith and staff members C. Arun, Sachin, Vinod, Achaiah and Harish participated in the successful rescue operation.

MGP demands publication of CA site allotment data

Calls to implement T.M. Vijaya Bhaskar's report; wants MUDA to be restructured to serve poor

MGP Founder Bhamy V. Shenoy addressing a press conference at Pathrakarthara Bhavan in the city this morning. Others seen are MGP members S. Shobhana, B.S. Nataraj, Bhanuprashanth and Venkatesh Karidi.

Mysuru, July 18 (GA&BCT)- Mysore Grahakara Parishat (MGP) has demanded the publication of the list of all Civic Amenities (CA) sites given away within the Mysuru city limits by the Mysuru Urban Development Authority (MUDA). The demand comes in the wake of irregularities in MUDA site distribution under the controversial 50:50 ratio.

"We demand the p publication of the CA site list so that their misuse by unscrupulous elements can come into the public domain. The people have the right to know how MUDA has distributed the CA sites and who all have misused them," MGP founder Bhamy V. Shenoy said.

Addressing a press conference at Pathrakarthara Bhavan in the city this morning, Bhamy Shenoy, along with retired MUDA officer B.S. Nataraj said that there has been a blatant misuse of CA sites since the last 50 years in all the areas of Mysuru including posh localities where CA sites meant for schools have been converted into private hospitals, petrol pumps, private schools and for other commercial purposes. The list must be made public and rule of law must be enforced," he said.

"During former DC P. Manivannan's tenure, he revealed that there are more than 200 CA sites that have been misused. We demand the Government to undertake a study to look into the misuse of CA sites and take appropriate action," he said.

CBI probe

On the site distribution scandal at MUDA and the ongoing investigation, the MGP demanded a Central Bureau of Investigation (CBI) probe for an impartial investigation. "There are doubts in the minds of people regarding the ongoing investigation by an Inquiry Committee led by a senior IAS Officer and the one-man Judicial Commission ordered by the State Government. Only a CBI probe will dispel the doubts," he noted.

"The MUDA scam is gaining prominence day by day due to the name of Chief Minister Siddaramaiah being associated with the scandal as his wife Parvathi has got 14 sites in the upscale Vijayanagar in place of 3.16-acre land acquired by MUDA in Kesare-Devanur. But apart from this scam where a VIP has benefitted, many other scandals in MUDA must come to light," he noted.

Former Mysuru DC T.M. Vijaya Bhaskar — who retired as Chief Secretary — filed a technical report on MUDA affairs. This report should be made public and recommendations should be implemented in full, the MGP demanded. Other demands of the MGP are: To comply with the 74th amendment to the Constitution, MUDA should be restructured to serve the poor and to have a world-class master plan for the overall development of Mysuru. Every effort should be made to remove all encroachments along the Rajakaluve and the Dewan Poornaiah Canal that bring rainwater into the Kukkarahalli Lake.

MGP members S. Shobhana, B.S. Nataraj, Bhanuprashanth and Venkatesh Karidi were present.

Plea to regulate traffic on 80 ft. Road, Vijayanagar 4th Stage

Mysuru, July 18- JAAGRUTI, a city-based NGO has complained about the new roads constructed in Vijayanagar 4th Stage saying that it needs immediate attention of the authorities for safety of the drivers.

In a letter to MUDA Commissioner, the Convenor of the NGO S. Arunkumar has said, particularly the 80 ft. Road has a very dense vehicular movement during school hours, specially of the ones who drop and pick up students from NPS International School, Mysuru. There is no scientific approach to cut down the speed of both 2 and 4-wheelers. Unfortunately, there are no effective traffic management systems in place to regulate vehicle speed on this stretch. Hence, vehicles are driven on these roads with a very high speed of more than 100 Kmph in the residential areas.

He has suggested speed-breakers to slow down the vehicles in high-risk areas such as schools and residential layouts. Further, the proper marking of zebra crossing will enhance the level of safety of school children and pedestrians. Erecting clear and visible speed limit signs will also help, he said.

Free dialysis service begins at District Hospital

(Continued from page 1)

Currently, there are three beds and three new dialysis machines installed, with plans to increase the number of beds to six soon. To boost blood levels in patients, iron and erythropoietin injections are administered free of cost.

Expert doctors and skilled technicians monitor patients to ensure they do not experience any complications.

While private hospitals charge thousands of rupees for dialysis, the District Hospital offers this essential service free of charge using modern equipment, ensuring quality care for all, Ravi noted.

> The Dialysis Unit has commenced its service, providing free dialysis to APL and BPL cardholders. Currently, there are three beds available, and an additional three beds are being installed. This service is intended to benefit the poor, and patients from neighbouring taluks are also receiving this free service."

KRS Dam crosses 113.40 ft.

(Continued from page 1)

However, as the days passed and the Cauvery basin and the catchment areas of Kodagu received substantial rainfall, the water level now crossed 113.40 feet. The Reservoir still needs 11.4 feet to be filled.

The water level in the reservoir had significantly decreased earlier, leading to drinking water issues in Bengaluru, prompting the BBMP (Bruhat Bengaluru Mahanagara Palike) to impose fines for water wastage.

Ban orders in Hogenakkal

Meanwhile, inflow into Hogenakkal stood at 21,000 cusecs as of Wednesday evening and is anticipated to increase further with an increase in outflow from the KRS and Kabini Reservoirs. This morning, Kabini Dam recorded an outflow of 46,667 cusecs. In response to the increased water flow, Hogenakkal Falls and the Cauvery River have been declared off-limits to tourists. The Dharmapuri District administration in Tamil Nadu, implemented a ban on tourist activity late on Tuesday.

District Collector K. Shanthi stated that the public is prohibited from venturing into the river between Alambadi and Hogenakkal. This ban followed the suspension of coracle operations.

Precautionary measures

Anticipating water release from the KRS Dam at any time following the increased inflow and to prevent any accidents like drowning, a precautionary inspection was conducted on the riverbank under the leadership of Srirangapatna Tahsildar Parashuram Sattigeri, along with the Assistant Executive Engineer of Cauvery Neeravari Nigama Limited (CNNL) & Taluk Panchayat Executive Officer Venu.

During the inspection, awareness was raised about the necessary measures to be taken when the water is released. The officials targeted shopkeepers along the riverbank, villagers, and heads of ashrams.

Plans were discussed and formulated to handle the potential increase in outflow at riverbanks such as Edamuri, Balamuri, Sarvadharma Ashram, Karekura, Gautham Ashram, and Achchappa Koppalu, including measures to prevent public entry and other precautions.

Tahsildar Parashuram Sattigeri emphasised the need for preventive measures to be taken during the increased outflow from the KRS Dam to prevent any dangers at the riverbanks.

Inspections were carried out at previously flood-affected riverbank areas, and necessary steps were discussed and planned. Local villagers were instructed to be informed through the department officials.

Fresh water & dirty plastic!

Following heavy rainfall and the subsequent inflow of water into KRS has also brought along with it large amounts of plastic waste thrown by tourists all along the Cauvery Catchment Area. *[Pic. by M.N. Lakshminarayana Yadav]*

Nritya Samarpane by Dr. Aagnika Ajaikumar

Mysuru, July 18- Dr. Aagnika Ajaikumar (Vidushi), disciple of Vidwan Sridhar Jain from Sri Nimishambha School of Dance, Mysuru, will be presenting *Nritya Samarpane* at three different places.

To start with she will be performing at Jaganmohan Palace in city on July 20 at 5.45 pm followed by at Shivamogga (Kuvempu Rangamandira) on July 27 at 5.30 pm and in Bengaluru (Chowdaiah Memorial Hall) on Aug. 4 at 5.30 pm.

She will also be showcasing a unique concept of Ardhanarishwaram in the second half of the performance in Mysuru. Pramoda Devi Wadiyar will be chief guest. Renowned violinist Mysore Nagaraj and noted Bharatanatyam Dancer - Teacher Vidushi Anuradha Shridhar will be the guests of honour.

Addressing media persons at Pathrakarthara Bhavan in city yesterday, Vid. Sridhar Jain said Aagnika, daughter of Bhagya Ajaikumar and Dr. B.S. Ajaikumar, has treaded a tightrope walk to pursue two seemingly disparate aspirations of being a doctor and a dancer. She has completed her final year of MBBS at M.S. Ramaiah Medical College, Bengaluru and is pursuing her Post Vidwat in Bharatanatyam under Guru Vidwan Sridhar Jain

"Aagnika's tryst with dancing began at the same time when she took to walking. She was only three-and-a-half-year-old when she and her twin sister enrolled for the tutelage of Guru Vidwan Sridhar Jain. Under her Guru's guidance, she became the youngest dancer to do her Rangapravesha at the age of 9 in 2010 at Jaganmohan Palace. The year after, she performed a solo "Nritya Sambrama" at Ravindra Kalakshetra, Bengaluru.

Her Guru has been the driving force and key influence in fuelling her ascent as an adept Bharatanatyam dancer of phenomenal potential. She owes all her success and fulfilment to the transcendental essence and significance of this

Dr. Aagnika Ajaikumar

Guru-Shishya bond. Aagnika aspires to pursue her excellence in both dance and medical field. One of her greatest interests is in choreography. Her family leaves no stone unturned to help her dive deep and soar higher, added Sridhar Jain.

Dr Ajaikumar, Founder & Executive Chairman of Health Care Global Enterprises Ltd. (HCG) and Founder of non-profit Bharat Hospital Institute of Oncology (BHIO), Mysuru, who also spoke, said "Bharatanatyam helps in overall development of an individual. In days to come we are planning to set up an institute / academy at rural and urban places."

Dr. Aagnika assured to continue both dance and her academics. She also thanked her Guru and parents for encouraging and motivating her to learn dance.

Bhagya Ajaikumar and Gowtham Dhamerla, COO, BHIO were present.

Swaralaya holds Cultural Festival-2024

Mysuru, July 18 (TRR)- City-based Swaralaya, in association with Department of Kannada and Culture, Bengaluru, had organised Cultural Festival-2024, as part of its 34th anniversary at Veene Seshanna Bhavan here recently.

The event was inaugurated by Vidushi Lalitha. Vidu. Subbalakshmi presided. Vidu. Vijayalakshmi was the special guest.

Speaking after inaugurating, Vidu. Lalitha said that Swaralaya means Temple of Swaras and explained why children should learn music and practice them and how music helps students in their education.

Subbalakshmi emphasised the significance of dance-music and advised parents to engage their children in these art forms.

Vijayalakshmi commended Swaralaya for its music related activities for 34 years.

Founder-President of Naadavidyalaya Vid. M.S. Naveen Andagar was feted with 'Gana Kala Chatura' title. Accepting the felicitations, he advised children to learn music, dance and other art forms instead of spending time on their mobile phones.

Sri Sharada Nritya Kalashala led by Natya Vidwan V. Mahesh presented a dance. Sukruti rendered 'Daasara Pada' accompanied by Vid. M.R. Srikant on violin and Vid. M.R. Udayakumar on mridanga.

'Mummadi Krishnaraja Wadiyar laid foundation for Nalwadi's golden era'

Sri Varchasvi Siddalingaraje Urs (right), who unveiled the life-size portrait of Mummadi Krishnaraja Wadiyar, seen with Sri Krishna Gana Sabha President B.S. Sridhara Raj Urs and Harikatha Vidushi Dr. Vasanthalakshmi.

Mysuru, July 18 (PM&TRR)- "The reign of late Nalwadi Krishnaraja Wadiyar is often described as the Golden Era in the history of erstwhile Mysore Kingdom. But it was his predecessor Mummadi Krishnaraja Wadiyar who laid the foundation for the prosperity of the erstwhile Mysore State," opined Seer of Malavalli, Kappadi and Honnanayakanahalli Mutts Sri Varchasvi Siddalingaraje Urs.

He was speaking after unveiling a huge portrait of Mummadi at a function to observe the 230th birth anniversary of Mummadi Krishnaraja Wadiyar by Sri Krishna Gana Sabha in Gokulam 3rd Stage recently.

"Mummadi Wadiyar was born on July 14, 1794 and his coronation as the ruler of Mysore State was held on June 30, 1799, immediately after the defeat and death of Tipu Sultan in the 4th Anglo-Mysore war when Mummadi was just five years old. His grandmother and queen Lakshmammanni and Dewan Poornaiah used to monitor the administration till he attained the age of 16 in 1810," he said.

Continuing, he said Mummadi built many lakes and ponds like Lingambudhi Lake, the present Varuna Lake then known as Devambudhi Kere and Kukkarahalli Lake. "To encourage art and culture, he created an environment for scholars from various fields to settle in Mysuru and gave them royal patronage. He also planted saplings on all main roads and monitored their growth. Mummadi even built Choultries at entry points to Mysuru and provided food and shelter to tourists," he added.

"While going through old historical record, I understand that the great Karnatak Classical musician Sri Thyagaraja visited and gave a concert in Mummadi's Palace. Mummadi provided such an atmosphere for great scholars to visit Mysore. Mummadi contributed immensely to all sectors including Kannada language and literature. Mummadi himself authored many books including *Sritatvanidhi* and gave shelter to many great scholars like Devachandra,Ventakaramana Shastri, Basappa Shastri and others. It is noteworthy that after 1799 there were no wars in Mysore. Instead Mysore kingdom witnessed development," concluded Sri Varchasvi Siddalingaraje Urs.

Ganasabha President B.S. Sridhara Raj Urs presided. On the occasion, All India Radio artiste Dr. Belur H. Vasanthalakshmi presented *Seetha Kalyana* Harikatha programme.

Doctors' Day celebration at JSS Ayurveda Medical College

Mysuru, July 18- JSS Ayurveda Medical College celebrated Doctors' Day in memory of Dr. B.C. Roy recently and to commemorate the contributions of doctors towards healthcare.

Dr. Tapasbrata Tripathy, Professor and Head, Department of PG Studies in Kayachikitsa & Manasa Roga, SDM College of Ayurveda and Hospital, Hassan, was felicitated on the occasion.

Dr. Tripathy spoke on Ayurvedic treatment of skin disorders. He shared his extensive experience in treating various skin disorders using Ayurvedic principles and practices.

Common skin conditions discussed included eczema, psoriasis, acne and allergic dermatitis. Explanations of Ayurvedic remedies, dietary recommendations, lifestyle changes and therapeutic procedures used in Ayurveda to manage and treat skin disorders were shared by the guest speaker.

He concluded by citing examples of successful treatment outcomes using Ayurvedic methods and highlighting its efficacy and benefit.

Dr. B. Gurubasavaraja, former Chief Medical Officer, JSS Ayurveda Hospital, Mysuru, was the guest of honour.

Dr. Sarbeswar Kar, Principal, JSS Ayurveda Medical College and Hospital, Mysuru, welcomed the gathering. Amala, 4th BAMS student, rendered the invocation. Dr. Poornima Jalawadi, Reader, Department of PG Studies in Shalya Tantra, introduced the guest. Dr. Vidya Narayan, HoD of PG Studies in Prasooti Tantra and Stree Roga, read the citation.

Dr. K. L. Revanna Swarny, Director, I/C Medical Education Division, JSS Mahavidyapeetha, Mysuru, delivered the Presidential address. Dr. Rajesh A. Udapudi, Dean, proposed a vote of thanks. Dr. Noor Fathima, Assistant Professor, was the Master of Ceremony.

Appointed to Bayalaata Academy

Dr. Chetana

Mysuru, July 18- Dr. H.R. Chetana, Head, Department of Folklore, Maharaja's College in city, has been appointed as an Associate Member of Karnataka Bayalaata Academy at Bagalkot in recognition of her contribution to folklore and related arts as a Researcher and teacher. Academy Chairman K.R. Durgadas has issued an order to this effect.

She has more than 15 books to her credit.

Traffic sign-board inaugurated

Lions International District Governor Ln. N. Subramanya inaugurated the traffic sign-board installed at Manipal Hospital-Ring Road junction to create awareness about speed limits. The event was organised by Lions Club of Mysore Bhandavya. Lion members of various Clubs were present.

Music University signs 10 MoUs

Mysuru, July 18- Karnataka State Dr. Gangubai Hangal Music and Performing Arts University, Mysuru, has signed Memorandum of Understanding (MoUs) with 10 organisations at a programme held recently under the leadership of Music University Vice-Chancellor Prof. Nagesh V. Bettakote.

The MoUs intend to impart education in music and various other forms of performing arts.

The Music University has entered into an MoU with Sri Vijaya Kalaniketana at Shivamogga, Vistara Rangashale at Koppla, Nrityavarnakala Sourabha Trust in Mysuru, Sri Medha College of Performing Arts, Ability Unlimited Trust at Bengaluru, Rudra Academy at Bengaluru, Shambhavi School Dance, Bengaluru Natyantara Trust in Bengaluru, Audio Live and School of Engineering in Bengaluru.

Prior to this, the University had tied up with 39 other organisations and with the present 10, it has now signed up with a total of 49 organisations to open its centres and has taken an important step towards imparting education in Music and Performing Arts, says a press release from the Varsity Registrar.

WORD OF THE DAY

Otiose

Pronunciation: OH-shee-ohss (Adjective)
Meaning: Otiose is a formal word typically used to describe either something that serves no useful purpose, or something that has no use or effect.
Origin: In this life, some pursuits seem destined to set the world on fire while others simply aren't worth the candle. That's where otiose comes in. The adjective traces back to Latin noun otium meaning "leisure." When otiose was first used in late-18th century it described things that, like leisure (at least according to some), are pointless or otherwise produce no useful result, as in "it would be otiose to ask you about the book since you haven't read it yet." By mid-19th century it was also being used to describe people who indulge a bit too much in leisure & idleness — your loafers, lay-abouts & lazybones — and thus need a fire lit under them. Both otiose and noun otiosity (which predates adjective by several centuries) are usually found in formal writing, but should you have a burning desire to do so, feel free to drop either into casual contexts at your leisure.
Example: "Christian Tetzlaff has only begun to play the concerto recently, but it was a masterly performance. The concentrated tension, always the hallmark of Tetzlaff's playing, never flagged.... In other hands, an encore might have been otiose after all that. But Tetzlaff's playing of the andante from Bach's A minor solo sonata proved just as magical, and seemed to draw the entire hall into its hushed meditations." — Martin Kettle, The Guardian (London), 25 Aug. 2023

THE ODD WORD

Akrasia

Lack of self-control.

PHRASE OF THE DAY

Hell in a Handbasket

Meaning: When you say things are going to 'Hell in a Handbasket' you mean that a situation is rapidly deteriorating or that you are set firmly on a course for disaster.
Origin: The origin of the phrase 'Hell in a Handbasket' can be found in the practice of capturing the heads of guillotine victims in a basket, with the presumption being that these criminals would be going straight to hell for their crimes. Although the phrase is thought to have originated sometime during the 18th century, the first printed example is found in Winslow Ayer's book on the American Civil War, The Great North-Western Conspiracy. A reprint was published in 1867's House Documents in the U.S. Congress: "Speaking of men who had been arrested, Judge Morris said "Some of our very best, and thousands of brave men, at this very moment in Camp Douglas, are our friends.
Example: "How's work going?" Answer: "Horrible. Everything's going to hell in a handbasket."

QUOTE BOX

Life consists not in holding good cards but in playing those you hold well.

—Josh Billings

RIDDLE THIS

How can you drop a raw egg from a height onto a concrete floor without cracking it?

Answer: Concrete floors are very hard to crack.

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

Hero Women's Pro Golf Tour

Vidhatri of Mysuru takes one shot lead

Vidhatri Urs

Hosur (Tamil Nadu), July 18- Mysuru golfer Vidhatri Urs, who has finished in the Top-3 in her first two starts as a professional on the Hero Women's Pro Golf Tour (Hero WPGT), leads the field by one shot after first round in the ninth leg of the Tour at the par-71 Clover Greens course.

Playing only her third event as a professional, though she has won on Hero WPGT earlier as amateur, she carded a fine 3-under 68. Vidhatri, who had five birdies against two bogeys, leads by one shot over a trio of players, Sneha Singh, the 2023 Order of Merit winner, amateur Saanvi Somu and emerging young star, Karishma Govind. They all shot 2-under 69 each.

Vidhatri, who has been knocking on the door of a win as a professional, birdied the third but dropped shots on next two holes and turned in 1-over. On back nine, she birdied 10th, 12th, 15th, 17th and had no bogeys as she carded 3-under 68.

Sneha had an eagle on Par-3 ninth and three other birdies against one bogey and one double bogey. Saanvi Somu had a steady 69 with three birdies against one bogey.

Mannat Brar was 4-under through 15 holes, but a bogey on the 16th and a double on the 17th pulled her back.

Shweta Mansingh had a good start with three birdies in the first five holes, but she also dropped shots on the second and fifth. Then bogeys on Par-5 ninth and 10th took her over par, but a late birdie on the Par-4 15th hole brought her back in red figures at 1-under 70.
